10,000 Pages is a community-based awareness campaign working to highlight and reverse the depleted state of our city's school libraries. We are collecting new and gently used books for neighborhood schools to help update their collections so that students of all ages will have more interesting libraries to turn to and so that teachers will have more resources to use.

We urge you to participate by donating books at one of our listed Community Partner locations. School libraries are most in need of popular fiction and multi-cultural biographies meant for 1st to 8th grade reading levels. Talk to your local bookseller for suggestions.
